

Weigh Hopper Connector Blockage Eliminated: ClearFlex Connecting Sleeves

The Challenge: Canvas flexible sleeves connecting a cement weigh hopper were causing frustrating problems and excessive maintenance. The canvas material absorbed moisture leading to cement build up and blockage. Replacement was difficult, time consuming and caused interruptions to production.

Our Solution: ClearFlex Polyurethane Connecting Sleeves

Key Features: Non-absorbent to prevent build-up
Lightweight, only 0.8mm thick, helps prevent weigher hanging-up

Improvement: Blockages completely eliminated

Benefits:

- Accuracy** - weighing accuracy improved
- Cost Effective** - low cost, up to 10 times longer life
- Efficiency** - downtime minimised
- User Friendly** - transparent for simple troubleshooting
- Convenient** - standard diameter rolls, cut to length on site
- Dust Tight** - stretch over pipe to minimise waste and emissions

“Weigh hopper connectors have always caused me a lot of grief. I’m really pleased that we tried ClearFlex as it has proven ideal for the job. The fact it’s waterproof means it doesn’t block up, it’s really lightweight and strong, and being transparent means we can see product flow which makes everyone’s life easier.” Transport & Production Manager
