## DataSheet

# Screw Conveyor Spares

Screw conveyor breakdowns and operating issues can have a significant effect on plant performance. Having access to parts for quick repairs will help keep plant downtime to a minimum. As a WAM master reseller in UK, we offer a comprehensive range of WAM screw conveyor components for breakdown situations, many of which are available ex-stock. Hanger bearings, end bearing assemblies and stuffing boxes are available for ES/TU model conveyors in sizes 168, 193, 219, 273 and 323. We also offer motors, gearboxes and other components at a quick turnaround.

Additionally, we offer a wide range of components for CAMS screw conveyors. Components include hanger bearings, end bearings, motors and gearboxes. For a number of other screw conveyor manufacturers we can offer selected replacement components, please contact our team for further information and guidance.

**WAM hanger bearings, end bearing assemblies, stuffing boxes, motors and gearboxes**

**CAMS hanger bearings, end bearings, motors and gearboxes**

**Selected replacement components for other manufacturers**

**Is your screw conveyor beyond economical repair? Choose ConSpare & WAM**

As a WAM master reseller, we offer a comprehensive range of tubular and trough conveyors which are durable, cost effective, and simple to maintain.

We also provide associated engineering support services, including site surveys and CAD technical drawings.
