

ConSpare

Make it better.

DataSheet Aeration

ConSpare supply a comprehensive range of aeration equipment site proven to solve flow problems associated with handling bulk powders and granular materials.

With such a diverse range of alternative aeration techniques at our disposal we are able to solve bridging, ratholing and compacting problems when handling virtually any dry bulk material. To take advantage of our free design service please send details of your application and we will forward our recommendations by return.

Aeration Fluidiser

- Extremely effective in difficult applications
- Combination of directional air flow and vibration
- Unique silicone disc with patented lip seal
- Long life, virtually maintenance free
- External mounting assembly available

Evasser Flo Pad

- Highly effective dual direction air sweep
- Ideal for large silos
- 8 way multiple distribution Flo Pad available
- Simple installation with external mounting plate
- Flexible operation with variable air pressure

Aerator

- Simple, reliable operation
- Low cost solution to powder flow problems
- Easy installation from outside the silo
- Supply includes weldable socket
- Compact 55mm diameter

MONITOR Heavy Duty Aeration Pad

Heavy duty construction with integral stiffeners
Cotton diffuser with protective mesh gauze
Highly effective uniform air distribution
Can be installed and maintained from outside the silo
Connection 5/16" Enots

GAMS Aeration Pad

Very competitive price
Effective air distribution
Robust housing
Connection 1/4" GAS
Supplied complete with 1/4" - 3/4" GAS adaptor

Aeration Disc

1/2" dia. x 1/8" thick sintered bronze disc
Low cost
Simple installation from outside the silo
Easy to maintain
Connection 5/16" Enots

Dry Air Compressor

Oil and moisture free
Generate high volumes of low pressure air
Ideal for aeration systems
Simple to maintain
Spare parts from stock
